The Board of Red Emperor Resources NL (“Red Emperor” or the “Company”) provides the following commentary and Appendix 5B for the period ending 30 September 2017.

**New Activities**

Subsequent to the period end, on 31 October 2017, Red Emperor signed a binding Heads of Agreement (HoA) with an experienced Oil & Gas exploration firm to identify a number of strategic leases in California, prospective for oil & gas, with a view to acquiring those leases. While the specific location of the areas of interest will remain confidential until some or all of the leases have been acquired, the Company can advise that in return for funding 100% of the lease acquisition costs, as well as the acquisition and reprocessing of relevant seismic data, Red Emperor will earn a 60% interest in the newly established Joint Venture and any subsequent leases acquired. The total budget, inclusive of Landman fees, for the proposed acquisition is USD640,000, after which RMP will be responsible for its 60% equity interest. The Company looks forward to updating shareholders on this exciting new venture over the coming weeks.

Along with signing the above-mentioned Heads of Agreement, Red Emperor and its board continue to review and conduct due diligence on various oil & gas projects around the world. It is currently reviewing two exploration opportunities at high level, with a number of other assets having been introduced and considered. The board remains committed to adding new projects to its portfolio and deploying its strong balance sheet within the oil & gas sector.

**Philippines (SC 55)**

Red Emperor continues to be frustrated by the process and progress of the Philippines Department of Energy and lengthy delays associated with the ratification of the Company’s equity interest increase in Block SC55 - from 15% to 37.5%. An agreed work program outlined by JV partner Trans-Asia, consisting of geological and interpretive studies, remains the preferred operational course of action, however this work program cannot begin until such time as all JV equity interests are confirmed. Red Emperor participated in a USD \$25m exploration well (Hawkeye) within the block in 2015 and contributed in excess of AUD \$5m towards drilling costs. Over USD \$50m has been spent exploring the block to date and a number of drill-ready targets remain, including the “Cinco” gas prospect which has a best estimate prospective resource of 1.6tcf recoverable gas. Given the Hawkeye well discovered gas and a working petroleum system relatively close to Cinco, Red Emperor believes that Block SC 55 still offers significant value, despite the frustrations associated with the intended work program.

**Georgia**

As previously announced, Red Emperor continues to negotiate the sale of its 20% interest in Strait Oil & Gas for a nominal sum and a royalty to Range Resources Limited. The Company hopes to conclude these negotiations in the near term.
