ASX Announcement

## **Quarterly Activities Review For the period ending 31 December 2009**

### **PROPOSED SIBERIAN POTASH PROJECT ACQUISITION**

On 16 December 2008 the Company announced it had entered into an agreement to acquire an interest in a substantial potash project in South-East Siberia, Russia (**Potash Project or Project**). On 20 May, the Company announced it had reached agreement to amend the terms pursuant to which it will acquire an interest in the Project. The acquisition is conditional, inter alia, on the vendor demonstrating that it is entitled to acquire clear title to the Project.

As announced to ASX 7 September 2009, the Company has been advised by its Russian partners that the acquisition date is facing a delay of several months due to system rules recently granted final approval and implemented by the Russian Judicial Ministry.

At this stage the Directors believe the acquisition will take place in the first half of 2010.

The Company remains confident of acquiring the project under the commercial terms as detailed in previous announcements and firmly believes in the outlook for the future of the potash and fertiliser industries as recently supported by several major acquisitions within the industry.

### **RUSSIAN TIMBER PROJECT**

As announced to ASX on 19 June 2008, the Company has entered into a Memorandum of Understanding with Russian partners whereby the partners will provide the Company with the opportunity to acquire a 100% interest in a license to harvest a timber resource in Russia.

The Company continues to monitor the progress of the acquisition and looks forward to updating the market on the project in the future.

### **OTHER PROJECTS WITH RUSSIAN PARTNERS**

The Company and its Russian Partners continue to source and review additional and alternative resource projects, including mineral resources, for attractive opportunities to add shareholder value. The Company is currently reviewing several prospective projects. The Company looks forward to updating the market on these exploration projects in the future.

## EXPLORATION UPDATE

### **JILLEWARRA PROJECT**

The North Murchison Goldfields have recently had resurgence in polymetallic exploration with the discoveries of the Doolgunna Project (Sandfire Resources NL) and the Austin Project (Silver Swan Group).

The Company is considering further exploration opportunities including broad spaced geochemistry over the remainder of the Project leading to identify possible drill targets to test the gossan and the margins of the ultramafic unit. The prospective ultramafic – basalt contact zone strikes for over 6km within the Project Area but has received limited historical drill testing.

The Company continues to pursue heritage and environmental approvals for such programs.

### ***Notes***

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
